- Resolution up to 1200 dpi (Wand scans)
- Color/ B&W mode selection
- View images in iPad
- Scan full color A4 in 1.6 sec.
- Wand scanning through Li-ion

A mobile scanner that scans anywhere, anytime

Experience the efficiency and convenience of a truly mobile scanner! Powered only by Li-on battery, the MiWand 2 W-Fi PRO is a mobile scanner that allows you to scan without a computer or software. Simply gliding the scanner over the surface of a page and the scan is done. The images are then saved to a micro SD card up to 32G.

A fast and high-performance scanner

The scanner is small and portable. Yet, the MiWand 2 Wi-Fi PRO delivers outstanding performance. As you move the scanner over an area as large as 8.5" x 14", its sensitive color image sensor scan at 1200/600/300 dpi resolution in 24-bit true color. The high-quality images are saved to a JPEG or PDF format in microSD card. What is best, the MiWand 2 Wi-Fi PRO takes only 1.6 seconds to scan a full page at 300 dpi in color.

Easy to use

The scanner is built-in with a clear color LCD display that show the previewed images, scanner settings and warning messages.

Turn on the scanner, press the Power/ Scan button and move the scanner over a page, a wall, or a box and press the Power/ Scan button again to stop the scan. Your scan is completed.

Wi-Fi Connection

Using the scanner's Wi-Fi connection, you can wirelessly connect to your private cloud to browse or download your scanned image from the scanner to your computer, Android or iOS devices. When the connection is successful, open an internet browser from your device. The image files found in the built-in storage or on a microSD card are automatically displayed.

Preview images with 1.8" color LCD display

The Preview feature allows you to view your JPEG image on the color LCD screen for 2 seconds immediately after a scan to confirm the images you have just captured. In addition, you can also view all images individually or as a slideshow.

MiWand 2 Wi-Fi PRO

The easy-to-use 1.8" color LCD screen and button

1 System indicator light	■ Indicates the operating/warning status of the scanner.
2 Wi-Fi indicator light	■ Indicates the Wi-Fi connection status of the scanner.
3 LCD display	■ Displays preview images and settings menus.
4 Up arrow	■ Enters Menu screen from [Scan Ready] screen. ■ Navigate "backward" through images and menu options. ■ Press and hold for 3 seconds to turn on the scanner.
5 Power button	■ Press to start or end a scan. ■ Accept option choice in Menu and Preview options. ■ Press and hold for 3 seconds to turn off the scanner.
6 Down arrow	■ Enters Display mode from [Scan Ready] screen. ■ Navigate "forward" through images and menu options.
6 Return arrow	■ Return to previous screens or exists from Display mode or Menu option.

Wireless design, scan images anywhere

The brand new portable scanner can be operated with a single hand. Powered by Li-on battery, you do not need to carry a heavy power adapter and hunt for an electric outlet anymore! Since no computer is required to start a scan, you can carry it to anywhere, anytime! Whenever on the road, in a plane, a car or a café, you can digitize almost everything right away! Whether standing or sitting, you can complete your scan by simply gliding it over a surface. Even the posters on the wall or a pretty carton can be easily digitized!

PaperPort SE14

- The Professional Choice to Organize and Share Your Documents

The PaperPort SE14 main screen

PaperPort SE 14 is Nuance's most popular scanning and document management solution, carefully designed specifically for home office use. Part traditional file cabinet, part digital-document desktop, PaperPort SE 14 is the fastest and easiest way to scan, share, search, and organize your documents. Additionally, PaperPort SE 14 now delivers anytime-anywhere access to your most important files however it's convenient for you – using a PC, Mac, iPhone, iPad, or Android device.
