Digitize more memories with the Kodak s1220 Photo Scanning System

Consumers have hundreds, even thousands of valuable photos, documents and other memorabilia stashed in boxes, drawers and albums. Now you can show customers how any photo can become a safe, versatile digital image with the **Kodak s1220 Photo Scanning System**.

It's fast, compact, feeds automatically and features powerful, user-friendly software. Now you can scan memories to CDs, DVDs and other media for customers to display, print, share and preserve digitally; and in the process, create a whole new revenue stream.

Automated operation

Just take the photos/documents as received – even mixed sizes, different paper weights, random orientation – and place them into the fast auto feeder, no presorting required.

- Scan up to 30 photos (100 mm x 150 mm; 4 x 6 inches) per minute at 300 dpi
- Accept originals from 50 x 63.5 mm (2 x 2.5 inches) up to 215 mm x 863 mm (8.5 x 34 inches)
 - Scan both sides in one pass to capture backside information
 - Automatic image deskew
 - Create JPEG files at 300, 600 or 1200 dpi
 - Perfect Page imaging delivers exceptional image quality, scan after scan
 - Smart Touch feature makes scanning functions one-button easy
- Add more photos to the feeder while you're scanning to increase productivity
- Optional A3- and A4-size flatbeds to handle oversize or fragile materials
- Selectable image cleaner tool helps reduce the effects of environmental factors such as dust
