KV-N1058X/KV-N1028X NETWORK SCANNERS

Securely share scanned data
with easy-to-use network scanners

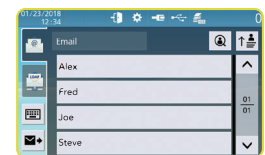

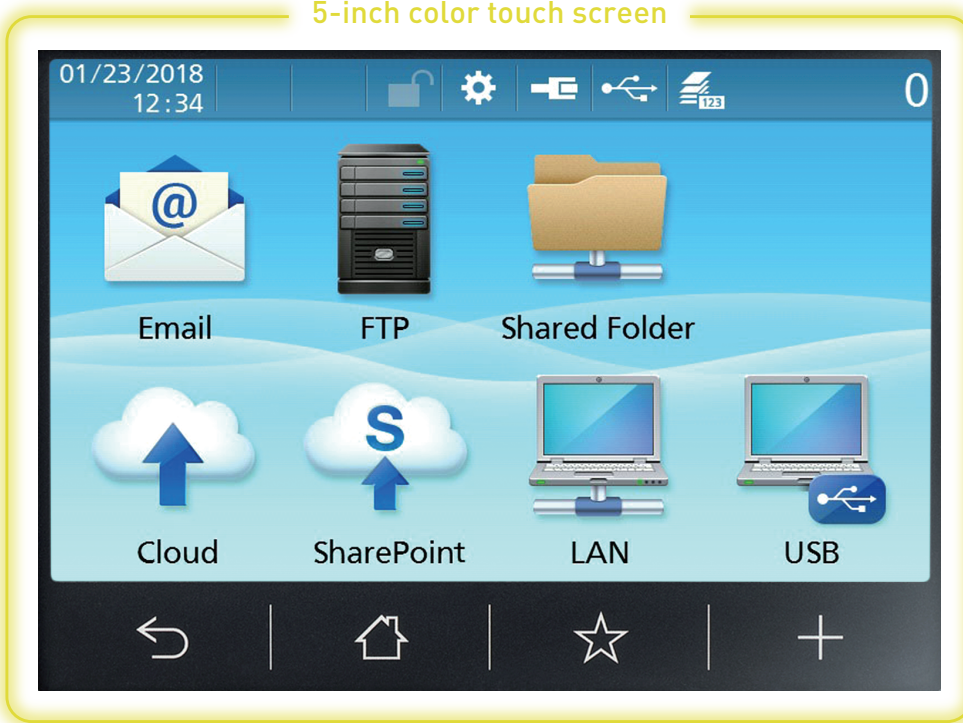

KV-N1058X / KV-N1028X Network Scanners

Easy-to-use 5-inch color touch panel provides intuitive operation

The integrated 5-inch color touch screen allows users to quickly and easily access or configure the desired scanning operations. By selecting the desired operation from the main menu, users can easily send scanned images or data to various destinations such as email, FTP or shared network folder.

easy access

Shareable network scanners – no PC required

The variable network connectivity of KV-N1058X/KV-N1028X allows you to connect the scanner to your office network over a wired or wireless LAN to suit your business needs. The KV-N1058X/KV-N1028X supports the latest enterprise wireless security protocols and Wi-Fi Protected Setup (WPS).

*Scan to SharePoint or Cloud requires a PC with the KV-SS094 Scan Server software installed.

Advanced security features

The KV-N1058X/KV-N1028X includes a variety of security features to prevent unauthorized device use and protect network data communications. Security features include network user authentication, SFTP and SSL/TLS communication protocols.

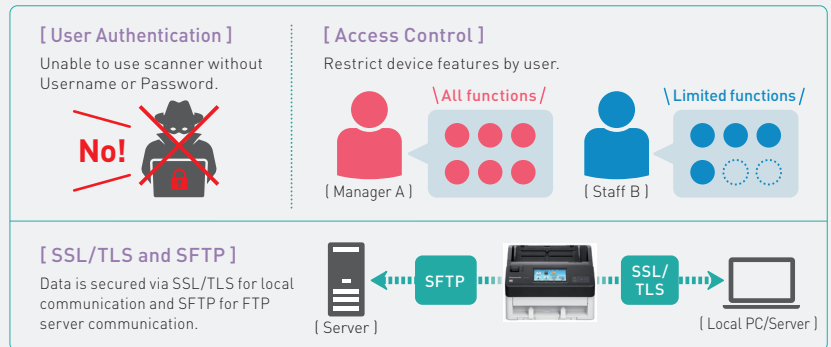

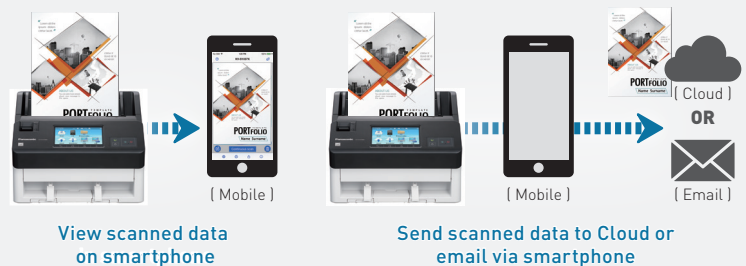

Image Capture Plus Mobile

Image Capture Mobile is an application which allows you to scan documents directly into your mobile device. Scanned documents can then be saved or exported to email or cloud repository. Users can scan documents over the office Wi-Fi network or built-in Access Point where up to 5 users can directly connect to the scanner.

Versatile document scanning

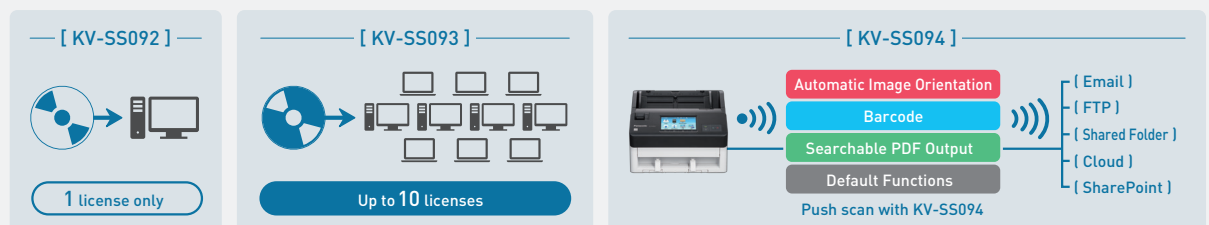

Scanning various documents is made easy with KV-N1058X/KV-N1028X. You can easily scan long paper, passports, bankbooks, or even embossed cards at once.

*Use the carrier sheet (KV-SS077) to scan passports and the mixed batch card guide to scan embossed cards.

IMAGE CAPTURE Plus

Options to expand your scanning operations

While the KV-N1058X/KV-N1028X includes a single user license of Image Capture Plus, additional user licenses are available. The KV-SS094 Scan Server software with 10 user license is required for users who need advanced OCR or Scan-to-Cloud/SharePoint capabilities.
